FY 2024 AUDIT PROGRESS AND FY 2025 INTERNAL AUDIT PLANS

<u>Action Requested</u>: Receive and approve the progress reports for the universities' FY 2024 audit plans and approve the internal audit plans for FY 2025.

Executive Summary: The Office of Internal Audit is an independent and objective assurance and advisory function designed to add value and improve Regent universities' operations. Internal Audit brings a systematic and disciplined approach to evaluating and improving the effectiveness of the organization's governance, risk management, and control processes. Internal Audit is dedicated to promoting and facilitating continuous improvement.

On an annual basis, in accordance with Audit and Compliance Committee policies, Internal Audit compiles and submits audit progress and future plans for the Regent universities. The plans are flexible and adjusted as needed to adapt to changes in the audit environment.

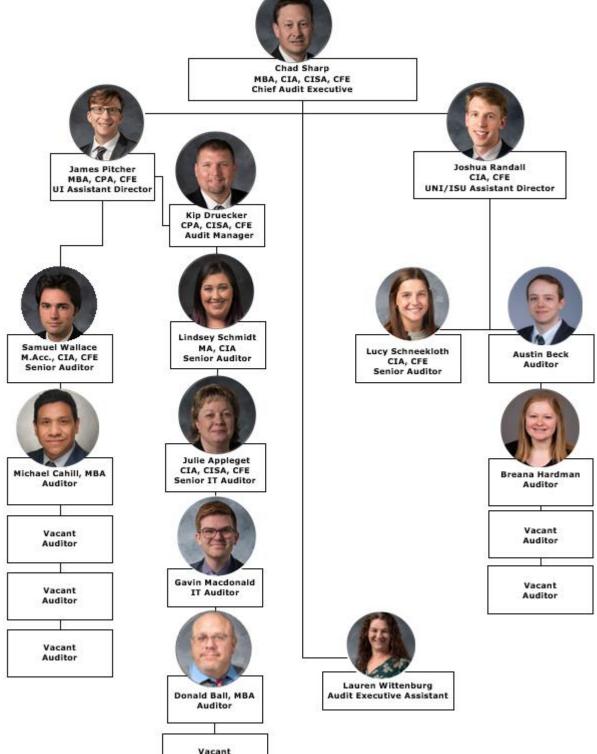

Our work is conducted and managed in accordance with The Institute of Internal Auditors' (IIA's) *International Professional Practices Framework*, which includes the core principles for the professional practice of internal auditing, the definition of internal auditing, the Code of Ethics, and the *International Standards for the Professional Practice of Internal Auditing (Standards)*.

The Office of Internal Audit supports the Regent institutions by performing audits based on the outcome of an annual risk assessment process. Audits identified during this process are completed throughout the year and provide either positive assurance that operations and internal controls are operating as intended; or that management action is needed to mitigate the risk or improve efficiencies that could impact each institution's strategic goals.

<u>Audit Progress and Plans</u>: In FY 2024, workforce issues continued to impact our operation negatively. Resources were shared between the institutions to address high risk audits but completion of the audit plan fell short with 47 of the 68 planned audits complete or in progress at fiscal year-end. As of August 30, 2024 four open positions remain at UI, and two at ISU. These openings are a result of office restructuring and staff turnover. Recruiting efforts are ongoing.

<u>Staff Credentials</u>: Many staff have at least one professional certification or a master's degree or are working towards a certification. Professional development is required for certifications and staff regularly attend training to stay abreast of emerging issues in higher education, technology and to keep their technical and soft skill sets relevant.

Following is a condensed table of the progress of the FY 2024 Audit Plans.

The FY 2025 Audit Plans are proposed after extensive interviews across each campus with key leaders and staff, reviewing past audit history, surveying the current higher education audit landscape, and using data analytics to review operations. Plans are then prepared using a risk-based approach to ensure that areas and activities specific to the Regent universities with the greatest impact, are identified for consideration. The Auditor of the State and external auditors provide financial audit services, allowing Internal Audit to concentrate on unique operational audits.

The FY25 Audit Plan is based on available hours for 18 auditors. As of the August 30, 2024, Internal Audit is actively recruiting for four open positions at UI, and two at ISU. The plans include risk-based and requested audits (financial, operational, compliance, information technology), risk-based consulting reviews, follow-up audits, investigations, and other projects and initiatives as needed. Unassigned audit hours allow for timely reaction to audit requests arising from various changes in operations.
